Yesterday's Labor Demonstrations in France.

Yesterday's Demonstrations.

By Cable and Associated Press.
MARSEILLES, May 2.—It is estimated that 50,000 workmen took part in the labor demonstration yesterday. The streets were noisy, but there was no breach of the peace.

A large meeting was held, and a deputation consisting of forty presidents of the different trades and unions and 3,000 workmen was appointed to visit the Prefecture and present a petition in favor of eight hours.

The Prefect declined to receive the deputation in body, but offered to receive the members if they would divide into groups.

The deputation, however, had been instructed to be received as a whole or not at all, and the party reported to the meeting, which then dispersed.

Serious Rioting in France.

By Cable and Associated Press.
PARIS, May 2.—Dispatches from Tourcoing, an extensive manufacturing town in the Department of the North, state that serious trouble has broken out there. The hands employed in twenty-six mills went on a strike this morning. Great crowds gathered about the streets, and were augmented by 5,000 strikers from Roubaix, another manufacturing town, and soon all hands began to show an ugly feeling, which culminated in serious rioting, which was progressing at noon. Troops have been summoned.

Congressional Matters.

By Associated Press.
WASHINGTON, May 2.—Among the bills reported and placed on the calendar was the House bill for the classification of worsted cloths as woolsens.

The question was on Gray's amendment to the effect that when any article is not clearly classified and there is doubt about which of two or more rates should apply, the lowest rate should be levied.

Gray's amendment was defeated. The Committee on Interstate Commerce made a report on the subject of American commerce by Canadian railroads. Ordered printed.

Vest introduced a bill to place express companies under the provisions of the interstate commerce law. Referred.

The concurrent resolution heretofore offered by Dolph, requesting the President to negotiate with Great Britain and Mexico with the view of securing a treaty for the prevention of the entry of Chinese into the United States, was taken up and agreed to.

A message from the House with the House amendment to the Senate dependent pension bill was laid before the Senate, and after a discussion, was referred to the Committee on Pensions. The customs administrative bill was then taken up.

Mitchell offered a resolution, which went over until to-morrow, calling on the Secretary of the Treasury for information as to the importation and exportation of gold and silver during the year 1889, and as to the bank notes retired and the kind of money issued to take their place.

HOUSE.

Davidson of Florida presented a protest of the citizens of Key West against the tobacco schedule of the tariff bill. Referred.

June 14th was set apart for eulogies on Randall.

The House resumed the consideration of the copyright bill.

The Special Committee to investigate the alleged diverting of commerce from the railroads of the United States to those of Canada and the alleged discrimination of the Canadian canals against American vessels, presented its report to-day. It recommends that as by an order in the Council, Canada charges entrance and clearance fees of 50 cents each every time an American vessel visits Canadian ports, and that, as a rebate of 18 cents per ton made on United States productions passing through the Welland Canal bound to Canadian ports, a similar discrimination be levied in American lake ports and on the "Soo" Canal against Canadian vessels.

Concerning the traffic of Canadian roads in competition with American roads, the committee recommended that either such a license shall be established as will be applicable to Canadian railroads doing business in the United States, or some other plan not injurious to the general trade and commerce of the country be adopted, which shall secure to American railroads an equal chance in competition with Canadian railroads.

Chesapeake & Ohio Railroad Accident Worse than Reported.

A Formidable Eight-hour Movement.

By Associated Press.
CHICAGO, May 2.—Ten thousand employees in the sash, door and blind, and other working establishments struck this morning for 8 hours, and the remaining fifteen thousand will probably go out before night. The iron moulders in the shops of the malleable iron works, the McCormick harvester works, the Deering reaper works and a number of other establishments went out this morning on a demand of an eight-hour day. The Illinois steel company acceded to the demands. The Fairbank canning company refused the demands of its 500 employees and they will strike on Monday. Eighty coopers struck this morning. The iron moulders are on a strike. They number about 600, but unless they resume work soon, several thousand men will be made idle for a lack of material.

Boston, May 2.—The strike of the carpenters is proceeding quietly; there are 1,700 men out. Only about 200 men are at work, and some of these will quit to-morrow.

MILWAUKEE, May 2.—The strike for eight hours did not materialize this morning, as many carpenters had been granted eight hours. No further action will be taken till Sunday, when a meeting to decide the action towards the bosses who refused to comply will be held.

LOUISVILLE, May 2.—Of 1,200 carpenters in this city, between 900 and 1,000 have struck to-day for eight hours and 25 cents an hour as the minimum wages. The non-unionists are fast joining the strikers, and by to-morrow but a handful will be at work. One big contractor only has signed the arbitration committee's agreement.

PHILADELPHIA, May 2.—There was rejoicing among the carpenters at the strikers' headquarters this morning when it was announced that the bricklayers had come to the aid of the strikers by ordering that no bricklayer should set window or door frames for the bosses who refused to grant the demands of the carpenters. In some cases the bricklayers stopped work on this account.

CHICAGO, May 2.—The Arbitration Committee between the striking carpenters and the new bosses began work to-day.

One thousand employees of the Wells & French Carriage Company struck this morning without notice for eight hours. The works were left idle.

The Clayton Assassination.

By Associated Press.
JEFFERSONVILLE (Ind.), May 2.—Jared Sater left here last night to testify in the investigation into the death of John Clayton at Little Rock, Ark. His story is that the murderer was Thomas Hooper, who died at Los Angeles, Cal., on October 10th last.

Twenty years ago Sater and Hooper lived in California. Hooper then told Sater that he had already killed two men for assisting to lynch his (Hooper's) father in Arkansas some years before; that John M. Clayton also took part in the lynching, and that he (Hooper) would yet kill him for it. Hooper sold his place in California, saying he was going back to Arkansas to kill Clayton. Sater never saw him again until after Clayton was killed, when Hooper returned to Los Angeles. He admitted the killing.

Sater told the facts to the authorities, but his story was not credited.

The Grain Market.

By Associated Press.
CHICAGO, May 2.—The bulge in the wheat market continues. July options started in at a very wide range, being quoted from 90 to 91. May was offered at 92 early, but found no takers. Later it was quoted at 93, but eased off to 92 1/2. At noon it was quoted at 93 again, while June stands at 93 1/2 and July 91 3/4. Corn and oats are materially higher.

A Sad Ending to a Day's Pleasure.

SPECIAL TO THE GAZETTE.
GALT (Cal.), May 2.—Frank Walton, living at Elk Grove, and Mrs. Mary Douglas, who resided with her mother near Hicksville, were drowned in the Coconino river while returning from a picnic last night. The bodies were found near the place of the accident.

Worse Than at First Reported.

By Associated Press.
BALTIMORE, May 2.—The result of the accident on the Chesapeake & Ohio railroad to the "Pearl of Pekin" Company is turning out more serious than at first supposed. Bertie Fisch, the soubrette, is still at Staunton, Va., and is reported not likely to recover the use of her limbs, which are paralyzed. Louis Harrison, the comedian, is injured about the head, and is threatened with brain fever. He is considered in a precarious condition. The season of the company has been closed.

Declared a Draw.

By Associated Press.
SAULT STE MARIE, May 2.—A hard-fought battle occurred last night at the City Hall, when Black Frank, the champion middle-weight of the Northwest, and the Black Diamond were matched. Twelve rounds were fought, the men paying no attention to the referee, and hammering each other without regard to the length of the rounds. After the twelfth round the police interfered, and the battle was declared a draw. Both men were badly punished.

An English Race.

By Associated Press.
LONDON, May 2.—The Newmarket first spring meeting for 1,000 guineas for three-year-old fillies, one mile and eleven yards, was won by the Duke of Portland's Semolina, the same owner's Memoir second, and Baron de Rothschild's Fatulle third. There were ten starters.

Why We Should Coin More Silver.

"If we open our mints now and coin [silver] without limit, or continue to coin with a limit at our present ratio," says Roger Q. Mills in the North American Review, "we shall lose our entire stock of standard silver whenever the European mints shall open. They will then take our silver and we shall take their gold. It may be asked, what objection could there be to such an exchange? The answer is, it would deprive us of the use of a money for small exchanges. It would be giving up a great convenience. It would be a calamity to the world if the whole stock of silver were converted into gold, or that of gold into silver. Gold is adapted to large transactions; silver to small. When values are to be exchanged which amount to thousands and millions, gold is the convenient money; but for the tens of thousands of small transactions that are daily occurring outside the banking circle silver is the convenient coin. In the growth of our civilization and business we have found that convenience has forced us to adopt the paper dollar, as well as the metal dollar, and even in the fractional money it is a mooted question if it was not a step backward when we dispensed with the paper half and quarter dollar.

There can hardly be a surer test of the civilization of a people than that which is shown in their facilities and conveniences for transacting their daily business. In that respect we are ahead of all others, not only in the amount of trade carried on among ourselves, but in the means which we have created for its easy and expeditious movement. To keep the primacy which we now hold, we must retain all the means now employed and grasp all others within our reach. We must not only keep our present mileage of railroads and telegraph lines, but build more; not only keep our present vehicles of transportation, but increase them. As our population increases and its labor multiplies its products for exchange, all the means for effecting that exchange must keep pace with the national growth; and it is just as essential to the national prosperity that our circulation should increase as it is that railroads, telegraphs, steamships and wagons should. To close the doors even partially against either gold or silver is a step backward; to throw them wide for both is to advance forward.

THE Tahoe proposition is of far more importance to this community than the majority of people imagine and should be attended to at once. After Von Schmidt's scheme has been accepted by the San Francisco Board of Supervisors and work has been commenced, it will be more difficult to head him off than it would be now. If the San Francisco Supervisors could be made to see that they are infringing on Nevada's rights by encouraging the scheme, and that a big lawsuit would be the fruits of their labors in that direction, we do not believe they would be anxious to enter into the agreement. If the people of this community do not take interest enough in the matter to make a move soon, they will only have themselves to blame if the proposition materializes. Sooner or later we shall be obliged to make a move in order to protect ourselves, and it occurs to us that now is the time to make it.

San Francisco has only heard Von Schmidt's side of the story yet, and that is so cunningly worded that it looks perfectly feasible. It is of no more interest to the GAZETTE than to every man, woman and child living within the county. But what is everybody's business is nobody's business, and we dislike to have the Board in question act without hearing our side of the story. A set of resolutions can be adopted that will put us right on the proposition by simply taking the trouble of getting together and formulating them, so why not act at once?

It is hoped that Senator Dolph's concurrent resolution authorizing the President to negotiate treaties with Great Britain and Mexico, with the view of preventing the influx of Chinese into the United States from Canada and Mexico, will be passed. The Bulletin says: We can keep out these Mongol invaders by maintaining a patrol along our northern and southern frontiers. We are turning back or capturing quite a number of them now, but a better service is needed. That is one of the immediate steps required. If we could prevail upon our neighbors to exercise a like vigilance it would simply supplement our work. If they could be induced to adopt our policy of exclusion that would solve the whole matter so far as border raiding is concerned, but it would be a matter of years of negotiation. Meantime we must keep up our fences and make them coolie proof. There will be no objection to Dolph's resolution from the Pacific Coast provided it is not accepted as a substitute for more effective legislation and administration.

THE judiciary act of the United States Courts has been so amended that hereafter the practice will be substantially the same as in the State Courts, under which no Federal judge, as heretofore, will have the power to instruct a jury what their verdict must be.

SIMPLY MARVELOUS!

SCARCELY eight months ago a medical discovery was placed upon the market bearing the title "THE GREAT SIERRA KIDNEY AND LIVER CURE," and whose virtue was claimed to be the cure of kidney and liver complaints. ITS INTRODUCTION WAS THE SIGNAL FOR ONE OF THE GREATEST SUCCESSSES ever achieved by a patent medicine on the Pacific Coast, as the afflicted quickly ascertained that it was far more efficacious and beneficial than had been claimed, as THE MOST WONDERFUL CURES WERE ACCOMPLISHED IN SUCH A BRIEF TIME as to seem MIRACULOUS. The testimony of hundreds who have been lifted from sickness and misery to health and happiness bears no uncertain sound, and they join in glowing testimonials of universal praise, hoping thereby to induce other unfortunates to drink of the font which restores that which is priceless, health. ONE TRIAL WILL CONVINCE THE MOST DESPAIRING THAT AT LAST A DISCOVERY HAS BEEN MADE which will restore a disorganized system and bring glowing health out of pale and sallow decline. C. F. BLANCHARD: We sell more of Hood's Sarsaparilla than of any similar.

MARTON & SHAW: With us the sale of Hood's is 10 to 1 of any other kind.

CARLTON & HOVEY: Hood's Sarsaparilla is one of the best medicines we have. Its sale increases every year.

F. F. MOODY: We sell twice as much of Hood's Sarsaparilla as of anything similar.

THIRTY OTHER druggists speak similarly.

This popularity at home, where Hood's Sarsaparilla and its proprietors have been known for many years, could not continue if the medicine did not possess merit. And these facts should certainly convince people in other sections of the country that Hood's Sarsaparilla is a good, reliable medicine.

If Your Liver Reminds You

Of its existence by dull pains or sharp twinges in the right side, or beneath the dexter shoulder-blade, accept the reminder as a warning, and regulate the organ without loss of time, by the use of Hostetter's Stomach Bitters. The above symptoms are usually accompanied by yellowness of the skin, constipation, ferreted bowels, disorders of the stomach, sick head ache and morning nausea. But the Bitters is simply instituted by the Bitters, the best substitute for cod liver oil, blue pill, and other superfluous and other harmful drugs, erroneously designate as remedies for biliousness. Appetite and digestion are restored, and the bowels resume activity, when the impetus is given to the functions of health by this sterling anti-bilious medicine, which also has the effect of curing and purifying the circulation, and fortifying the system against malarial infection in air or water. It is also highly beneficial for rheumatism, kidney and bladder troubles.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, skin rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cents, and \$1 per bottle at Pinner's drug store.

On a recent visit to Iowa, Mr. K. Dalton of Luray, Russell Co., Kansas, called at the laboratory of Chamberlain & Co., Des Moines, to show them his six year old boy, whose life has been saved by Chamberlain's Cough Remedy; he having cured him of a very severe attack of croup.

Mr. Dalton is certain that it saved his boy's life and is enthusiastic in his praise of the Remedy. He says it has an excellent reputation in his vicinity; that farmers come fifteen miles to his store for it and that many of them, like himself, are never without it in their homes. For sale by Shoemaker & Co.

H. Hodgkinson.

Mr. B. F. Masters, Cashier of Emmit & Co.'s Bank at Waverly, Ohio, says: "I consider Chamberlain's Cough Remedy the best I have ever used. The Duties of the Ladies.

The State Board of Agriculture should appoint a committee of ladies at their next meeting to see that the pavilion is a success and that Nevada shows to the world that she is not behind other States in fancy work, etc. It is certainly as much the duty of the ladies to see our State Fair a success as it is the gentlemen's, and they should take pride enough in the town and State to do their full duty, and the GAZETTE does not doubt but what they would enter upon the discharge of the duties devolving upon such a committee if called upon to do so cheerfully.

Roll of Honor.

The following is the roll of honor for the Glendale school for the month ending April 25, 1890: Sara Alt, Bart Currow, May Currow, Samuel Currow, Thomas Currow, Lillie Douglas, John Monahan, Mary Monahan, George Shaber, Elmer Whisler.

Work in that line done in the latest styles and at very reasonable rates.

Looking After His Fences.

L. A. Blakeslee is here looking after his interests in a political way. He would like to serve the State in the capacity of its Secretary, or would not object to being Controller, if it is made up that way.

The State Board of Agriculture has concluded to give cash prizes for exhibits in any department hereafter, not enumerated in the premium list as published.

THE PISTOL ROUTE.

A Fast Man Ends His Life With His Little Gun.

A San Francisco dispatch of May 1st says: Three months ago a man calling himself R. B. Schwartzkopf, and claiming to represent the New York Mutual Life Insurance Company, registered at the Baldwin Hotel in this city. He led a fast life and spent money freely. E. J. Baldwin advanced him \$1,400 and M. B. Curtis, the actor, \$250 on drafts on the National Bank of Deposit of New York. The bank refused to honor the drafts, and to-day Baldwin notified the police officers, who went to the hotel and found Schwartzkopf in a room with Curtis. The latter left, and the officers followed him. When they returned they found that Schwartzkopf had shot himself through the left temple, dying instantly. On his person was found a card giving his address as 120 Broadway, New York.

THE FLAG RAISING.

A Red Letter Day for the Rising Generation.

There was a large attendance at the public schools to-day to witness the flag raising. Col. R. H. Lindsay addressed the audience and told the little folks what significance the raising of our national banner over a place of learning had for them. He was attentively listened to and frequently interrupted by applause. "The Star Spangled Banner," as sung by Miss Grace Vasson, was sweetly rendered, and fired the young blood with enthusiasm. "Drake's Address to the American Flag" was well delivered by Miss Ione Gould. The attractive program arranged was successfully carried out and the flag of our country now floats proudly over Reno's public school building as a lesson to the rising generation to love and reverence our national banner.

V. & T. Changes.

Tip Clark, one of the oldest and best engineers on the road, has resigned on account of ill health. Cooney Pohl takes Clark's place on the local. Jerry Macdonald is transferred from the Virginia to the Carson yard engine. Fireman Thrall gets the Virginia yard engine, and the night hostler in Reno takes Thrall's place on the passenger.

Got His Men.

M. T. Bowler, the Los Angeles officer who arrived here yesterday morning, secured a requisition from Governor Stevenson, and this morning left for home with his three prisoners, who are charged with a jewelry robbery at the above place. The culprit gave their names as John Kelley, William Sprout and Ralph Alberley.

Pleasant Exercises.

The N. S. U. Literary Society gave a pleasing entertainment this afternoon. The music and recitations were all good. The student are self-possessed and show marked improvement as each succeeding term draws to a close. Reno is proud of the State University.

Orange Shipments.

A Los Angeles dispatch of May 1st says: About 2,000 carloads of oranges were shipped from Southern California during the present season, of which 700 carloads were shipped during the month of April. It is estimated that about 300 carloads are left to supply the markets of May and June.

When nature offers and requires help, exact her services. Dr. J. H. McLean's Blood Purifier. \$1.00 per bottle.

McKISSICK'S OPERA HOUSE.

Hallen and Hart in "Later On" On the 7th Instant.

The New York Clipper says: Hallen & Hart's "Later On" received its city premier evening of February 11th at the Star Theater. The house was packed to suffocation, and the audience enjoyed and applauded the many bright things in the piece, the company making a most pronounced popular success. Fred Hallen and Joe Hart are the pivotal points as Jack Plunger and Jolly Todd, their greatest successes being in their specialties, which gave them so high a place in the vaudeville. The dancing and singing of Mr. Hallen and the banjo playing of Mr. Hart were their brightest hits. They displayed fetching costumes in the second act, their appearance being warmly greeted. The manager, Harry Hine, is to be congratulated on the auspicious metropolitan inaugural. The piece should crowd the theater during its week's stay here.

LINCOLN COUNTY.

Good Assays—The Raymond & Ely Rediscovered.

The Pioche Record of the 26th ult. says: Tom McDonald came up from Pahrangat last Friday with a batch of ore from his Fantasmagoria mine, which pulped 525 ounces in silver per ton. A few more such shipments will cause a stampede to Irish mountain.

A fine vein of gold ore has recently been discovered in Comet district, which assayed \$36 per ton. Heretofore assays have not been made for gold either in this district or Irish mountain, though indications point to such deposits.

It is rumored on the streets that Superintendent Sam Godbe of the Pioche Consolidated and Yuba Companies has discovered the long-lost Raymond & Ely ledge between the ninth and tenth levels. The ledge was discovered through a fissure leading into the foot-wall, and extends as far as prospecting into the old Meadow Valley ground. The vein is five feet in width, and assays up in the hundreds. The ore is free milling.

HUMBOLDT ITEMS.

Plenty of Water for Ground Sluicing and Good Pay.

The Winnemucca Silver State of May 1st says: Three companies are at work ground sluicing in placer mines on Willow Creek. There is an abundance of water and the diggings are said to be paying. There has been more or less placer mining carried on on Willow Creek for the last fifteen years and some very good streaks have been found.

Paul Pinson arrived in town yesterday from Gold Run, where he is working the Bonfield & Pinson mines. He had several ounces of gold dust, which was coarse enough to save without quicksilver, one specimen weighing very near an ounce. The dust is worth about \$20 an ounce. There is plenty of water for ground sluicing this year and the diggings will doubtless pay well.

Run Over And Killed.

Al Howell was run over by the passenger train at Carlin last Monday night and killed. He was seen getting on the track ahead of the locomotive and his actions gave rise to the suspicion that he committed suicide. A cataract had grown over one of his eyes and the sight of the other was effected. This caused him to feel independent and substantiated the belief that he got on the track for the purpose of being run over. He was unmarried and about 35 years of age.

Leprosy on the Baltic.

Leprosy has of late assumed such large dimensions in the Baltic provinces, especially in the province of Estland, that it has been deemed necessary to take steps toward building an asylum for those unfortunate people. The first institution of this kind will be founded at Dorpat. Subscriptions, and lotteries are now being got up for this object in different parts of Russia.

A Sifting Inquiry.

The German Emperor has ordered the Court Chamberlain "to make a sifting inquiry into the claims of seven ladies recently presented at Court who bore noble titles, but whose parents belong only to the 'haute finance,' and not the nobility. Their noble husbands are said to have married them for the sake of their money."

Lost Sheep Buyer.

A sheep buyer by the name of Lackey has been missing for the last three months. When last heard from he was at Ogden. He never reached a hotel after leaving the train. The general opinion among sheep buyers is that he has been done away with.

The regular meeting of the Ladies Guild will be held at the rectory Saturday, May 3d, at 3 o'clock p. m. Supper will be served from 5 to 8 o'clock. A cordial invitation is extended to all. Price of admission, 25 cents.

Cremated Widows.

The sacrifice of widows on the funeral pyre still goes on in Bali, an island near Java. They are burned along with the remains of their husbands. The latter's slaves also share the same fate if he be of high rank. A short time ago three wives of a chief were cremated.

Watterson Disclaims.

Henry Watterson denies having lost \$1,000 or any other sum at a game of poker in Memphis, Tenn., on Saturday evening, April 19th. He declares that the story is absurd, as he had never played poker in that city.

There is on exhibition at the Third National Bank at Scranton, Penn., a check bearing the signature of George Washington. It was drawn just three months and one day before his death.

Advance in Real Estate.

A tract of land in De Kalb county, Ga., was bought by Jordan Johnson during the war for \$15,000 in Confederate money. One day last month it sold for \$63,000 in greenbacks.

Judge M. A. Murphy of the Nevada Supreme Court, left this morning for his old home in McHenry county, Ill., where he was called by the serious illness of a brother.

A QUAKER'S DOZEN.

Richard Stege, the well known proprietor of the Quaker Dairy, No. 30 Ellis st., San Francisco, last week sent the following letter to the Editor of the "Daily Evening Gazette": "My family have been taking Jorg's Vegetable Sarsaparilla now for months with splendid results. Our experience has been that after taking it regularly for a short time and getting the system started right, an occasional dose thereafter keeps the system in perfect condition. A peculiarity of your vegetable compound is, that it does not lose its effect, but seems to accomplish the same results continually. As a liver and bowel regulator and corrector of indigestion, we would not be without it. In fact I have just bought a dozen bottles to get the reduced price. A. M. Rowe of 522 Jones street, S. F., also writes that it has been his habit for years to awake in the mornings with a headache and an exhausted feeling; but since the first bottle he has had no return."

Got Even on the Mule.

A sharp little boy named Murgie, who was kicked by a mule, instead of saying naughty words or going home crying to his mother, tied the mule within five feet of a beehive, backed him round to it and let him kick.
